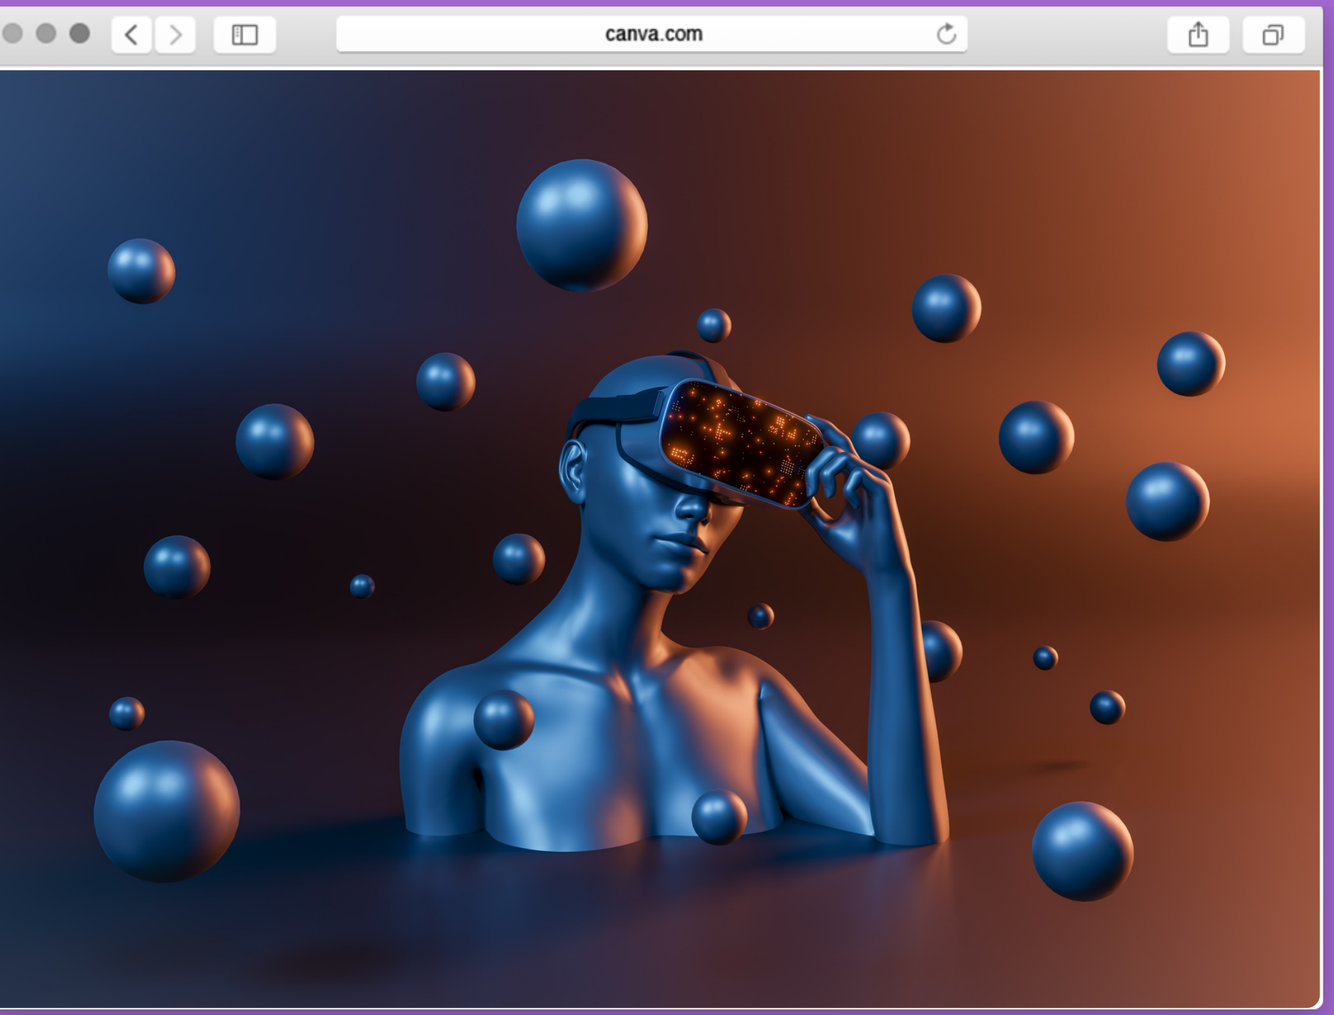
Agenda

Key takeaways:

- What is Metaverse
- What are AR,VR,XR,NFTs,Crypto?
- Types of Metaverse
- Uses of Metaverse
- What we can do in Metaverse?
- Marriage in Metaverse?



What is Metaverse?

Metaverse is a virtual-reality space in which users can interact with a computer generated environment and other users

METAVERSE IS THE COMBINATION OF AR, VR, XR, NFTS, CRYPTO CURRENCIES ETC,.

About AR, VR,XR!

Augmented Reality

We can add digital elements to the physical world. We can experience AR with our Mobiles also! Examples: Snapchat Lenses, Google AR, The game Pokemon Go and etc,.

Virtual Reality

It's a Computer generated environment with scenes and objects that appear to be real, making user feel they are immersed in their surroundings. This environment perceived through VR headsets

Extended Reality

It referring to all real&virtual combined environments and human machine interactions generated by computer technology and wearables. Where 'X' Represents a variable for any current or future spatial computing technology

About Crypto Currency ?

It's a digital form of Currency. Crypto is decentralized currency, No one can monitor, its works based on a powerful technology called Blockchain technology, we can see the crypto coins digitally but we can't get it into our hands, we can't touch them physically

Non Fungible Tokens (NFTs)

These are cryptographic assests on a block chain with a unique identification codes. Simply we can consider unique digital assests as a NFTs.

These NFTs are also Digital assests so we can see them digitally but we can't get it into our hands, we can't touch them physically.

Two Types of Metaverse!

BLOCK CHAIN BASED

- One of them deals with building a Blockchain based Metaverse using NFTs and Crypto Currencies. Some of the examples are Decentraland and the sandbox which allow people to purchase virual parcels of land and build their own environments.

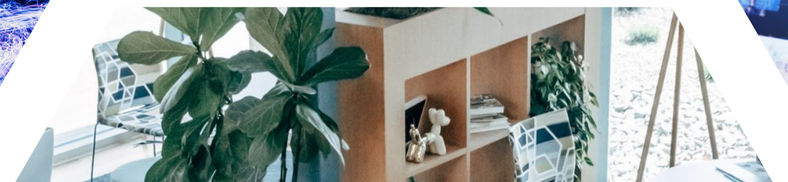
Social World

- While other one is a simple virtual world where people can meet and greet each other. Facebook is working towards creating this version of Metaverse

Use Cases of Metaverse!

- REAL ESTATE
- TRAVELLING
- EDUCATION
- FITNESS
- SHOPPING
- VIDEO GAMES

We can Feel Physical Touches by Wearing Haptic Suits & Haptic Gloves



WHAT WE CAN DO IN THE METAVERSE?

- Make a Virtual Property
- Earny money by investing in NFTs, playing games that earn you money etc,.
- Advertise Anything
- Create an environment customized to yourself
- Own Digital properties
- Buy & Sell Unique assests

Marriage in Metaverse😍!

India's First Metaverse Wedding

A couple from Tamilnadu brought tradition and technology together when they hosted their wedding reception in the Metaverse. Dinesh SP and Janganandini Ramaswamy got married on February 6,2022 in sivalingapuram, a small tribal village of Tamilnadu. However, Friends and Family from across the world were able to attend the wedding that followed as it took place in a virtual world.

Any Queries ?

THANK YOU!
